“This District is a patchwork of individuals who are wholly committed to doing what is best for students. It’s a community of teachers who not only teach, but learn alongside their students. It’s a community of teachers and administrators who do not accept the status quo. We always look for ways to improve.”

“My favorite part about the Oregon School District is the teachers. They are amazing and make you feel welcome and like you can learn. It overall improves my performance in class because they make me feel like I can do it.”
